

Dear Judge,

My name is Jessica Gonzalez and I have known Leonard Degnan for the past two years. In this short time Leonard aka Lenny has taught me so much. He has shown me how much of a positive man he is he always thinks in a positive way. He is the type of person to tell you the truth to your face whether it's good news or bad news. When I needed advise he was more than willing to help me/ guide me.

His main priority is his family and the way he treats his wife is admirable. After so many years of marriage the two look at each other like it's the first day they met. They have the type of bond most people will never see in their lifetime. Lenny is an amazing father who would do anything for his family. He is very supportive and most of all understanding. He is willing to sit there and hear your problem and see if he can help.

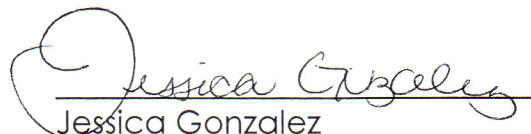

I have personally witnessed him make clients happy. His hours of operation are 9-5 but most days' he's there past 5 pm helping customers. During the storm he had stayed open so that his customers who needed him could count on him to be open.

I personally believe there was an injustice done against him with this trial. He is not the man the prosecutor made him out to be.

I hope you take this into consideration and see the impact Leonard has had on me in just the two years that I have known him. And just imagine the good that is there to come.

Thank you.

Sincerely,

Jessica Gonzalez
